SUMMARY

I am a full stack developer with four years of experience building scalable systems in asset tokenization, payment and booking systems, CRM/ERP, and e-commerce platforms. I work mainly on backend architecture (PHP/Laravel, .NET, event-driven systems), while also developing frontend layers with JavaScript and Vue.js, building responsive user interfaces and integrating RESTful APIs. I focus on clean architecture, maintainable codebases, and end-to-end product delivery where backend stability and frontend usability go hand in hand.

SKILLS

Languages: PHP, C#, Go, TypeScript

Frameworks: Laravel, Symfony, .NET Core, Vue.js

Technologies: Node.js, PostgreSQL, MySQL, MongoDB, RabbitMQ, Redis, REST, GraphQL, gRPC, Docker, CI/CD, Git

Domains: FinTech (Payments, Wallets, Financial Operations), Blockchain & Asset Tokenization (Real Estate, Gold), E-commerce, CRM/ERP

EXPERIENCE

Fullstack Developer at **Thorne IT** (Remote)

Istanbul, Turkey ▪ 09/2023 - 09/2025

- Developed blockchain-integrated tokenization platforms for real estate and gold assets, incorporating Domain-Driven Design (DDD), event sourcing, reconciliation systems, and scalable payment workflows with audit-ready financial operations.
- Designed modular backend packages for wallet, security, order processing, and banking integrations using event-driven patterns (saga, outbox) to ensure transactional consistency.
- Constructed marketplace trading and physical redemption systems with on-chain verification, compliance controls, scheduling, and automated settlement, while integrating REST APIs with Vue.js-based admin panels and operational dashboards.

Fullstack Developer at **Reactor Technology** (Remote)

Istanbul, Turkey ▪ 04/2022 - 07/2023

- Developed comprehensive full-stack web applications for e-commerce, online education, and business management platforms, encompassing RESTful backend services and custom frontend interfaces.

Frontend Developer at **SekizGen IT** (Remote)

Istanbul, Turkey ▪ 08/2021 - 12/2021

- Built custom Shopify storefronts with responsive designs and optimized checkout flows. Developed tailored plugins for inventory synchronization and dynamic pricing, and integrated payment gateways and shipping providers to deliver complete e-commerce solutions.

EDUCATION

Mersin University, Computer Programming (Associate degree)

Graduated (2018-2020)
